Student | Web Developer | Python Enthusiast | Startup Enthusiast |
BITS Pilani, Hyderabad Campus
Pune

Summary

I am a first year student pursuing Engineering @ BITS Pilani
Hyderabad Campus. I love meeting new people and getting different
perspectives, learning new things and always ready for new
experiences. I may not be an expert in everything but I am willing to
take chances, risks, and to learn from my mistakes.

♦ I am inclined towards programming and more importantly towards
the development side, and have learnt c++, java, html, css, javascript
and I am proficient in python. These are my major interests but ready
to learn new technologies according to the need of the hour.

♦ I love photo, video editing.

♦ I am very interested in ML and it's amazing to learn about its
applications in various fields.

♦ I enjoy challenges that enable me to grow.

♦ Having lived all around the country and meeting a lot of people and
being well versed with Telugu, English and Hindi, I think I am able to
adapt to any surrounding or circumstances.

♦ Apart from Tech, I love to play Basketball and Chess in my free
time and have recently developed a strong interest in Table Tennis
as well.
